BIOGRAPHICAL SKETCH

CAROL KAYE was born in Everett, Washington to musician parents. Carol played and taught guitar since 1948. She started studio work in 1960 and began playing Electric Bass in 1965. Working mostly rock and roll record dates at first (Beach Boys, Mothers of Invention, Nancy Sinatra, Sonny and Cher), she now plays on TV and film scores and jingles as well. Some of the singers and groups she works with are: Ray Charles, Ed Ames, Hugo Montenegro, Nancy Wilson, The Lettermen, Lou Rawls, Glen Campbell, O. C. Smith, Petula Clark, Supremes, Miracles, The Mother Lode. Carol also has enjoyed working under the direction of: Hank Mancini, Lalo Schiffrin, Michel LeGrand, Quincy Jones, Elmer Bernstein, David Grusin, David Rose, Stanley Wilson, Ernie Freeman, and many other fine arrangers and composers.

The Publisher

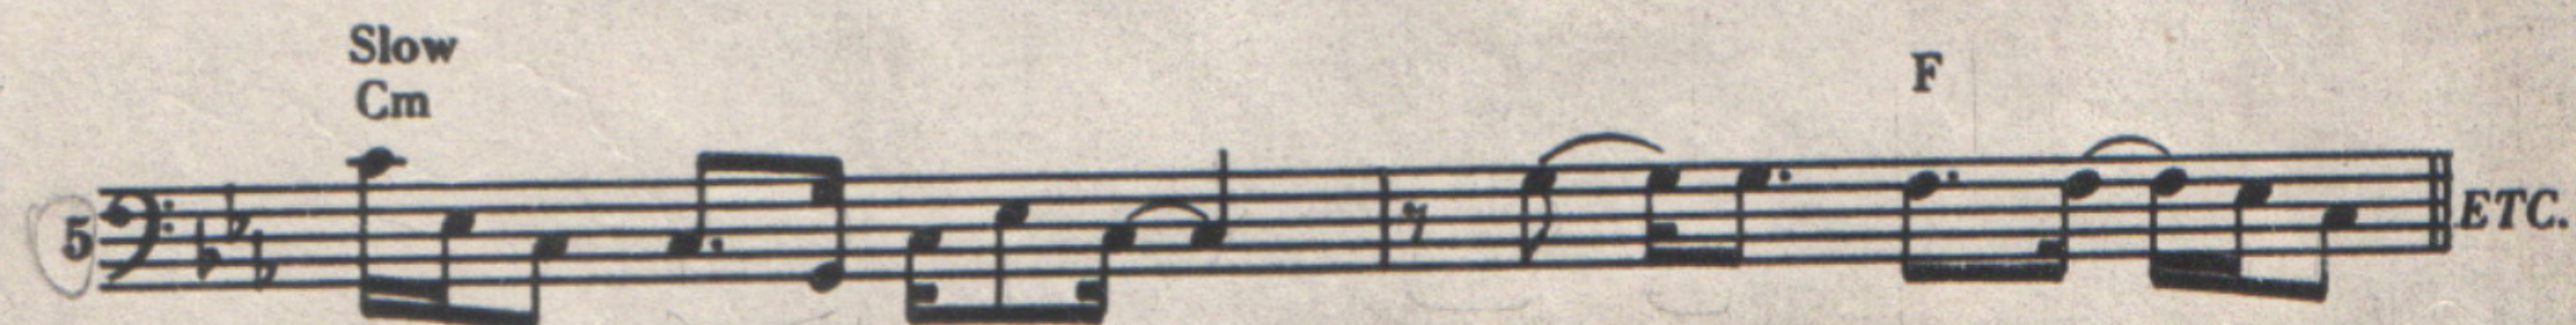

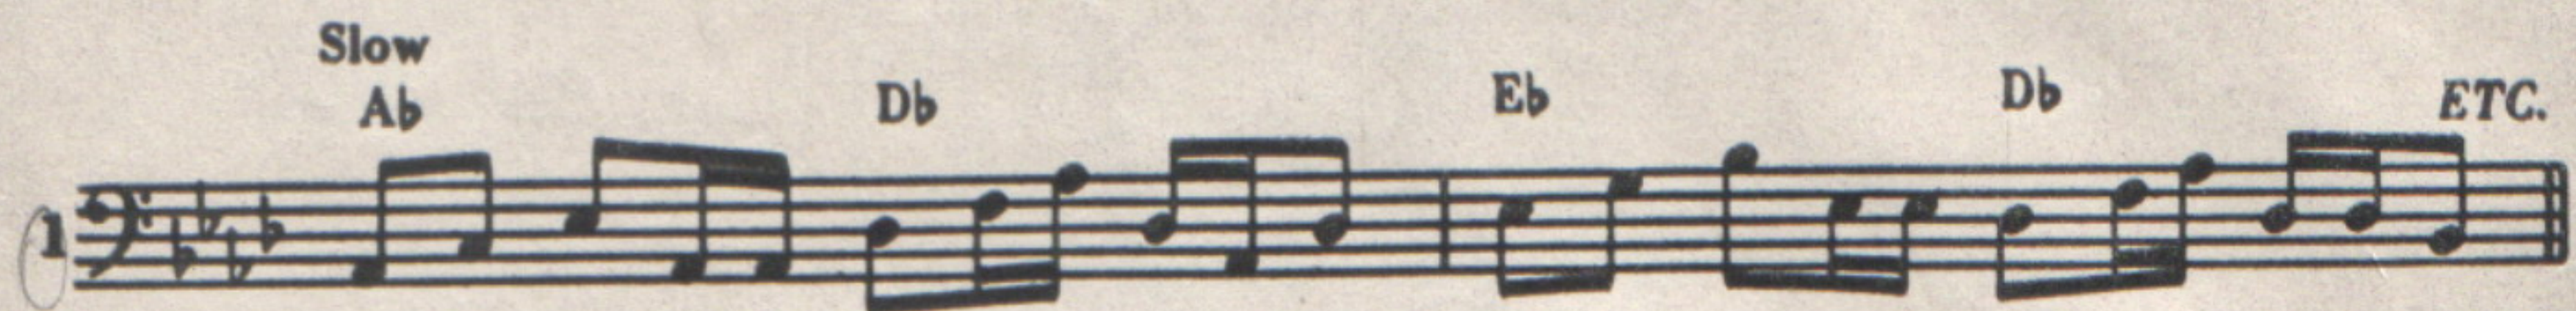

INTRODUCTION

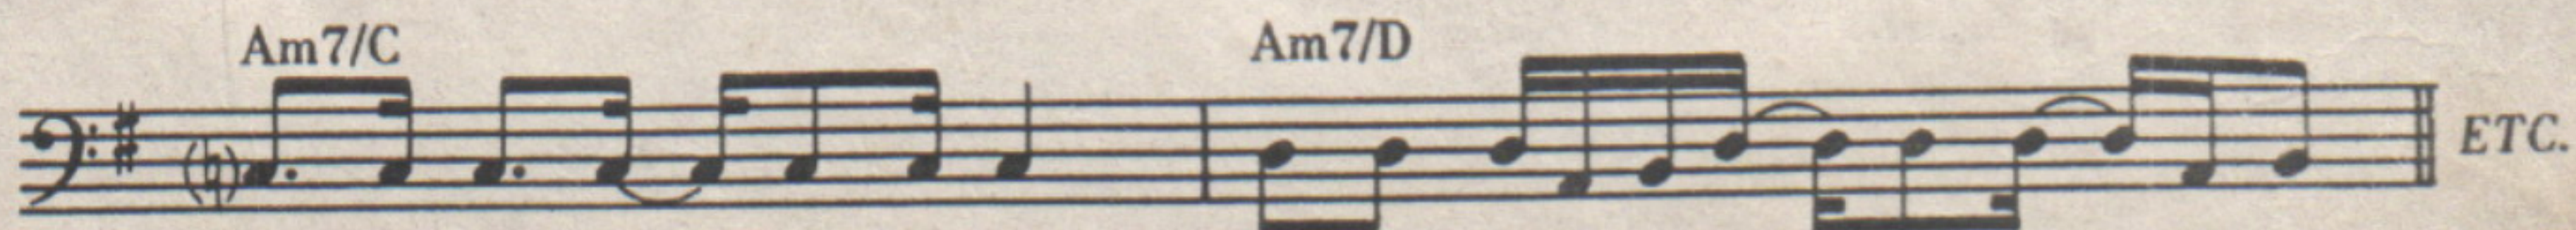

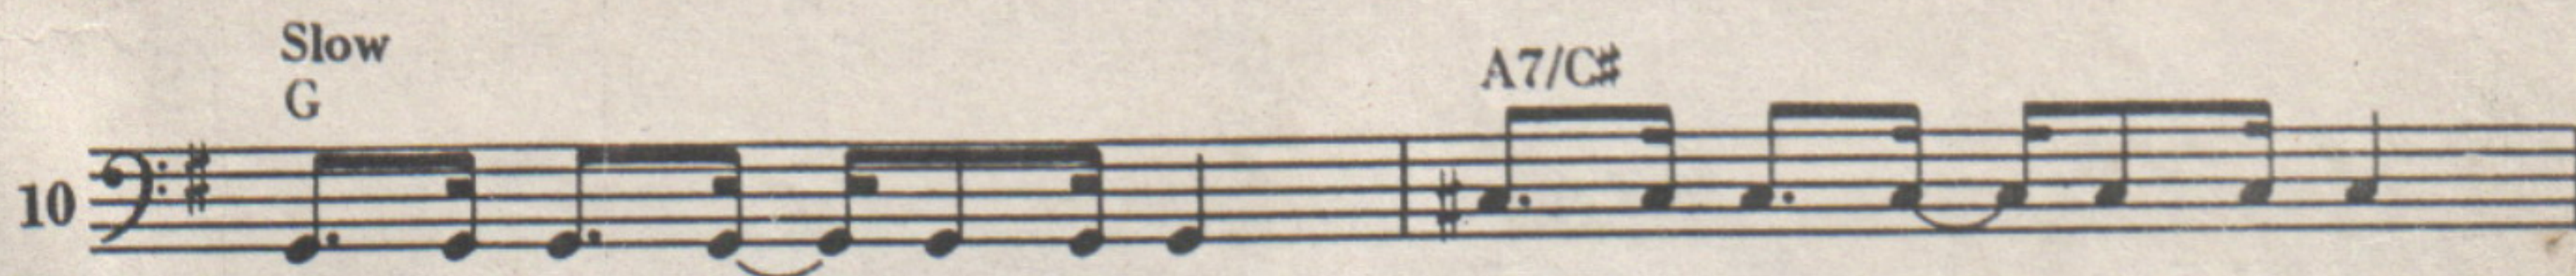

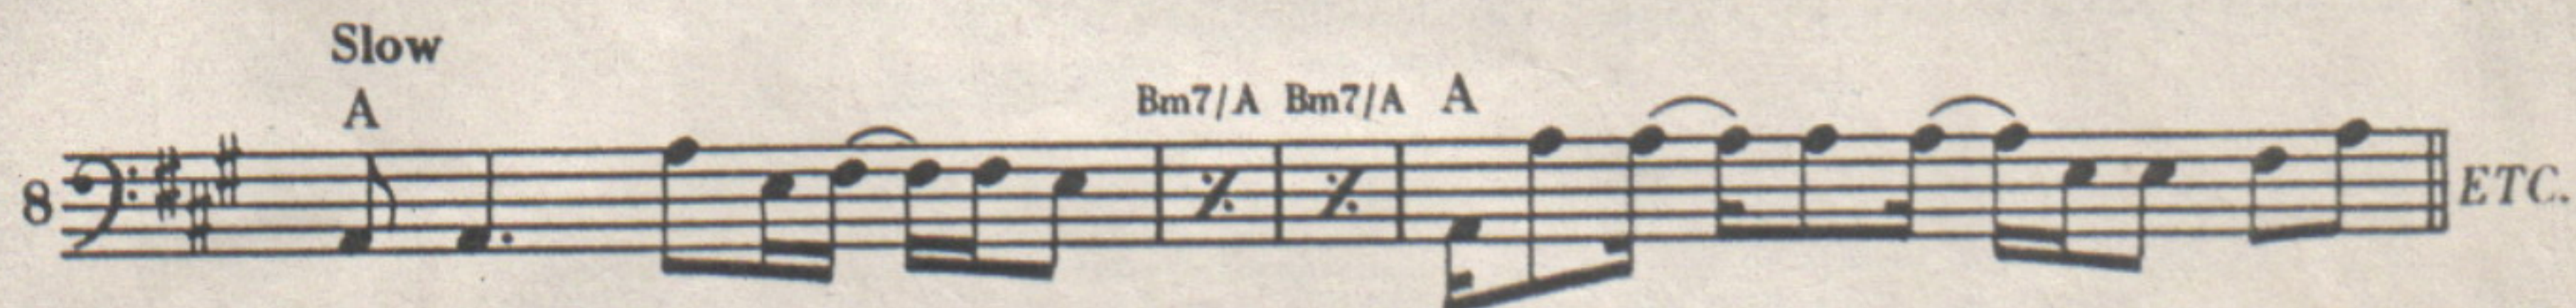

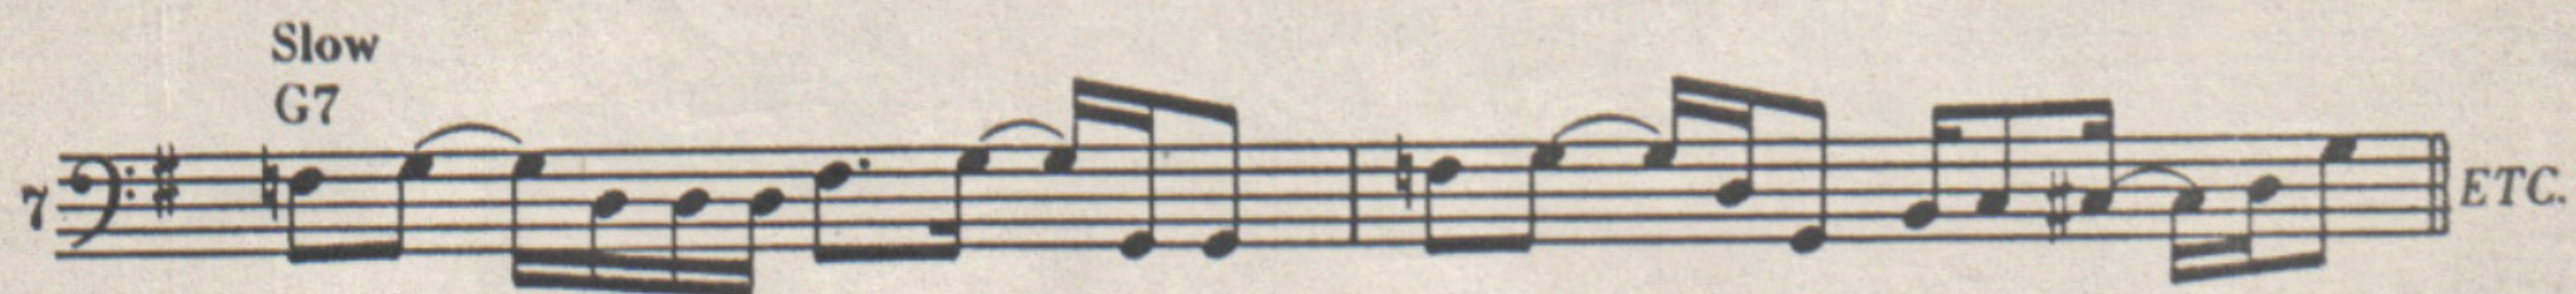

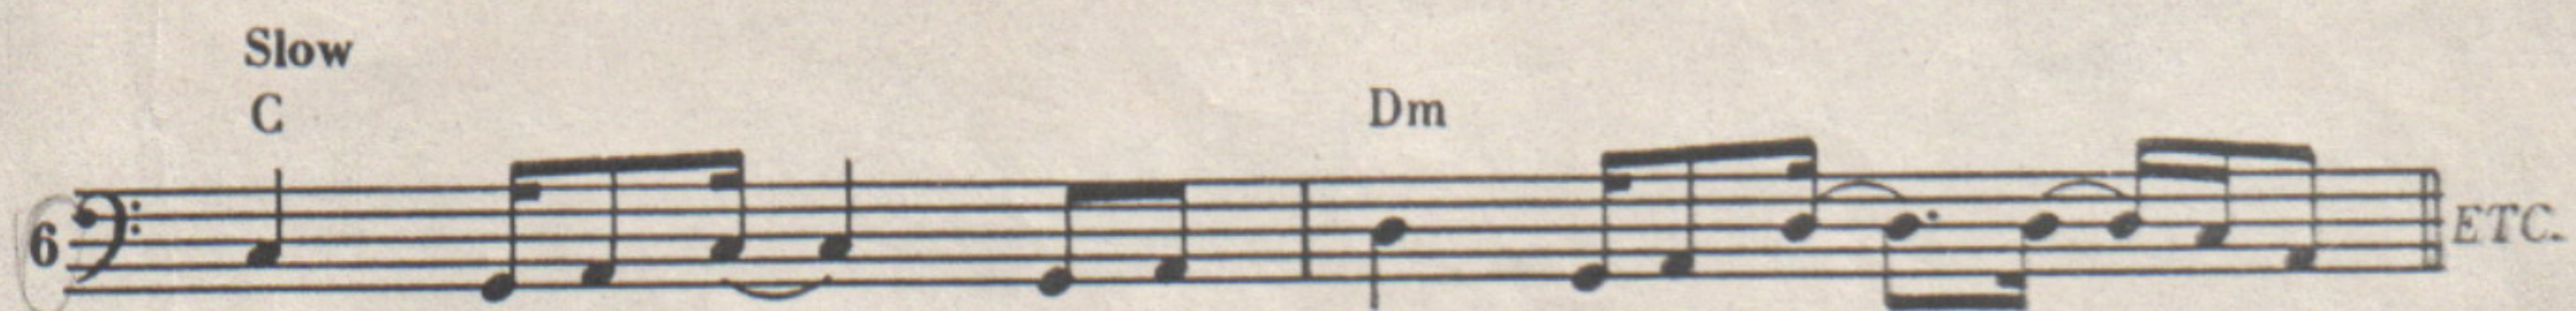

This book was written to give the player many different ideas for the way to play Electric Bass in Today's Styles. I have gotten many of these ideas right in the recording studio and recorded them with various singers and groups so some will sound very familiar. The rest I have usually just invented right on the spot for both TV Film and Movie Scores. Needless to say, without the great musicianship of the other players involved on these sessions, it would have been very hard to invent good bass lines so credit is really due to the recording musicians, especially the drummers. Arrangers now are also coming up with terrific ideas for bass lines (Gene Page, Hugo Montenegro, Tank Jernigan, to name a few). Soul-Rock is here to stay and is really the biggest influence on every day music. The Electric Bass plays a terrific part with all the groovy bass patterns that are possible to play on this instrument. Always listen to the relationship of "feel" between bass, drums, rhythm guitar and lead on a record to evaluate what pattern you should play with your group. Remember, everything looks hard on paper but will swing after being played a time or two.

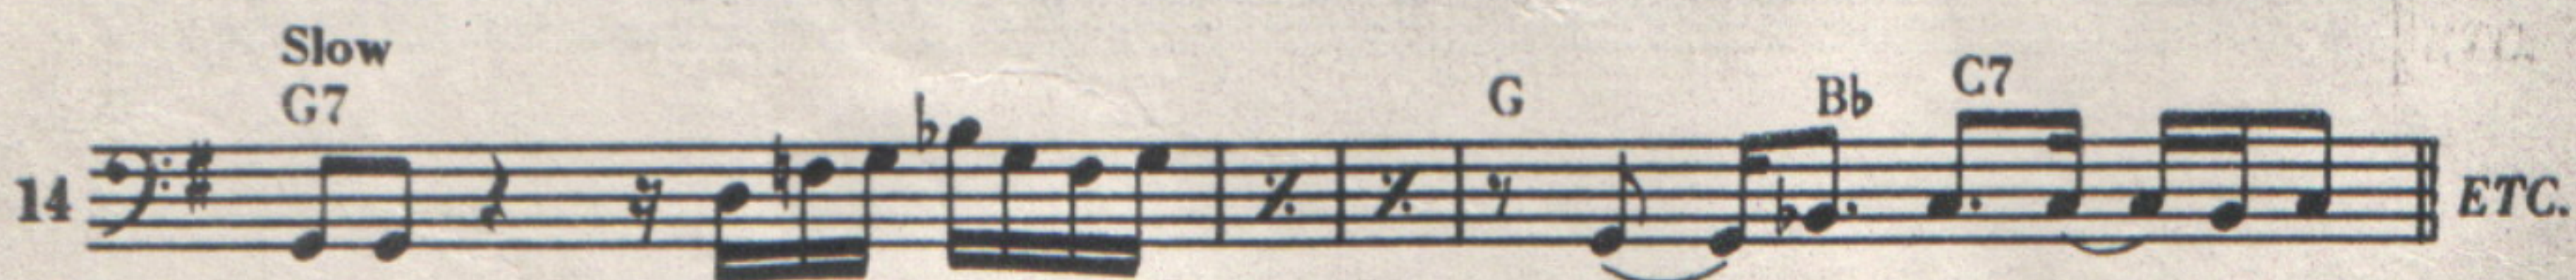

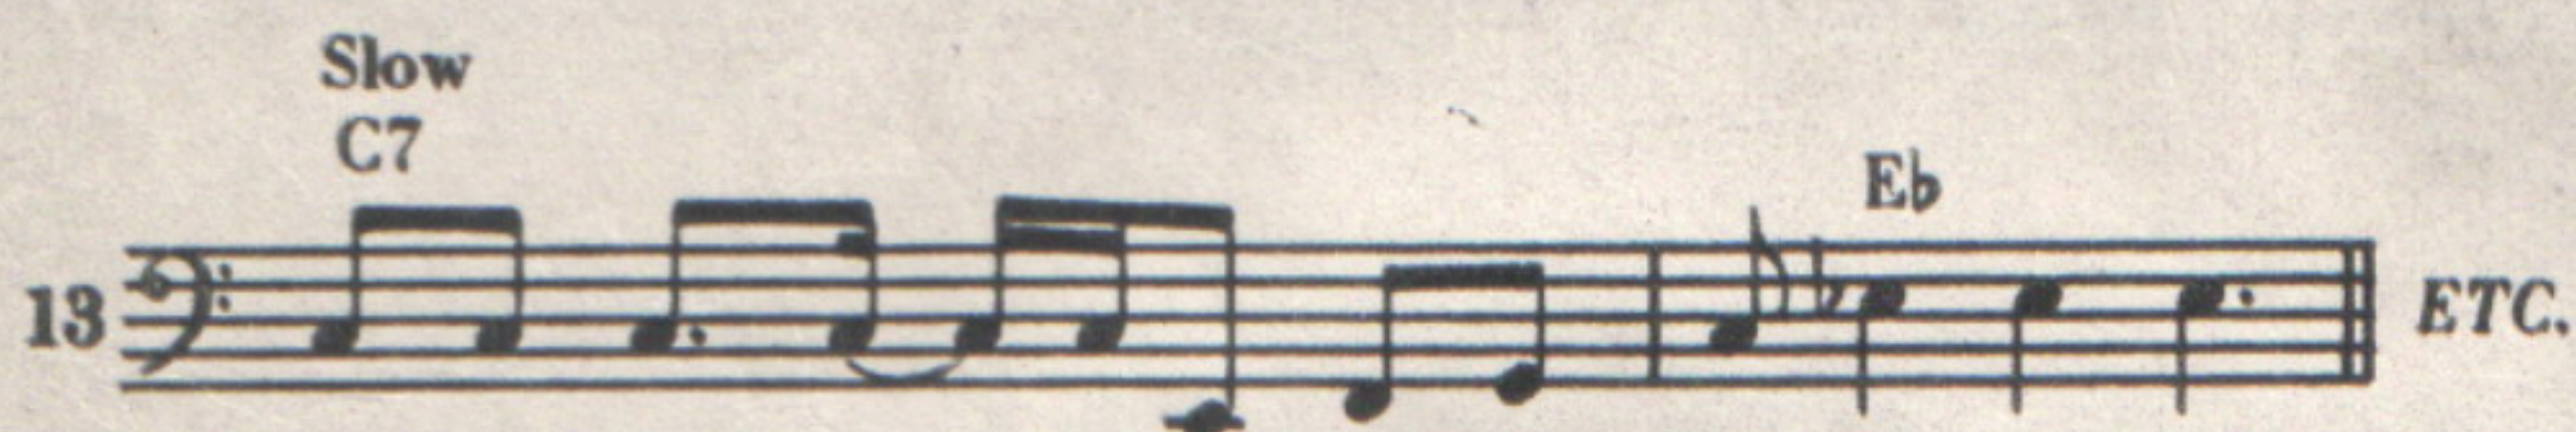

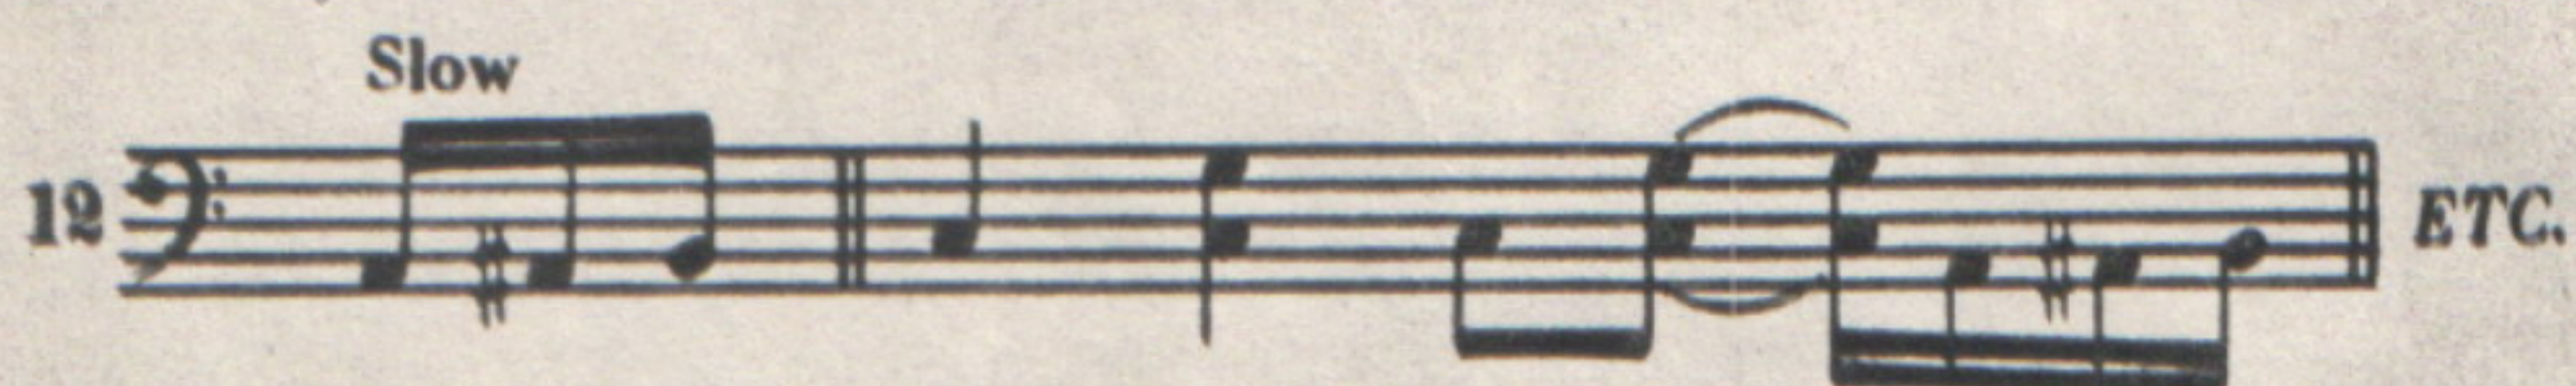

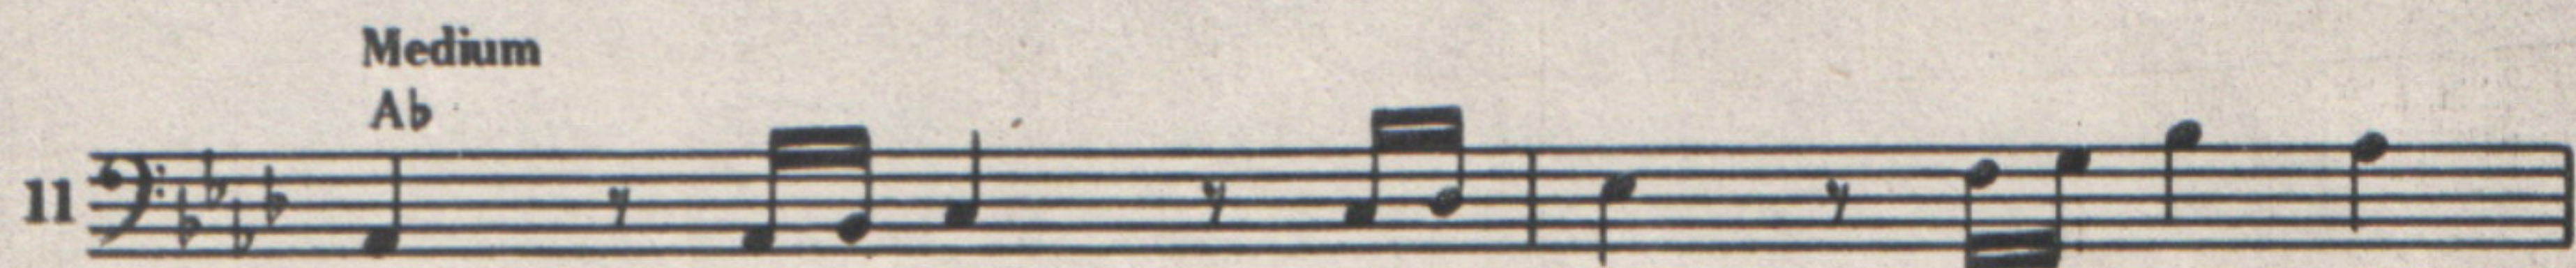

Sincerely,

Carol Kaye

Repeat pattern from top - etc.

This block contains eight staves of music for electric bass. The first staff is numbered 37 and includes a measure with an 'Em' chord and a measure with an 'Open' string. The subsequent staves continue the melodic and harmonic progression, with various chords (Em, Bm, Em7, A, Am, B7) indicated above the notes. The final staff concludes with the instruction 'Repeat pattern from top - etc.' and a final 'Open' string notation.

Fills

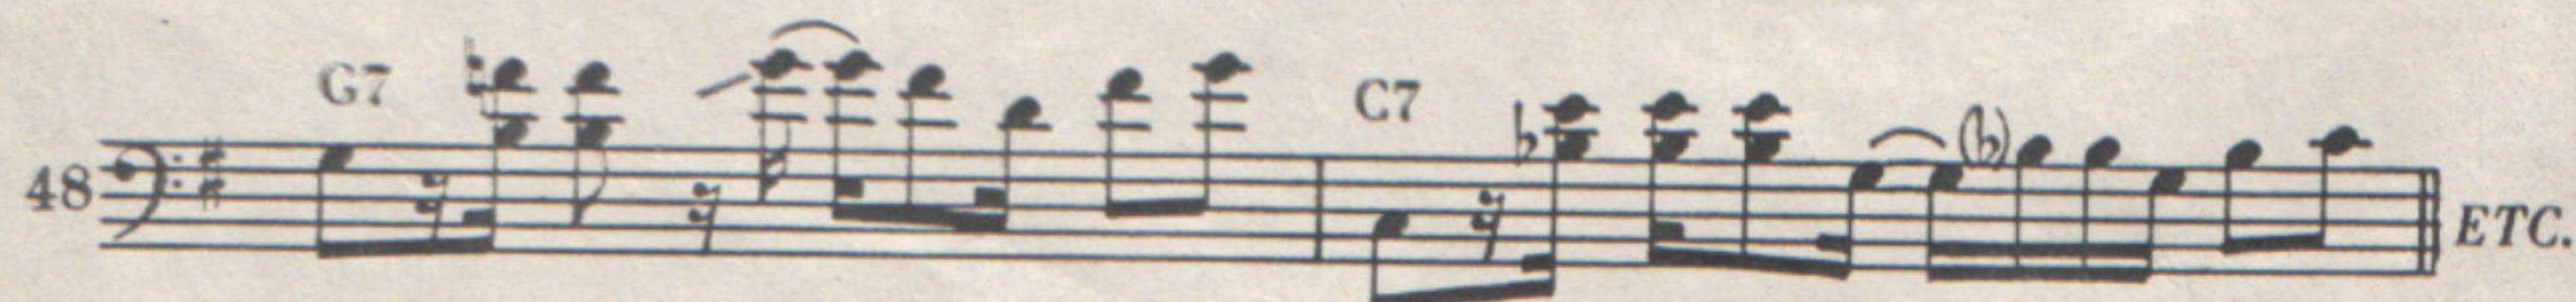

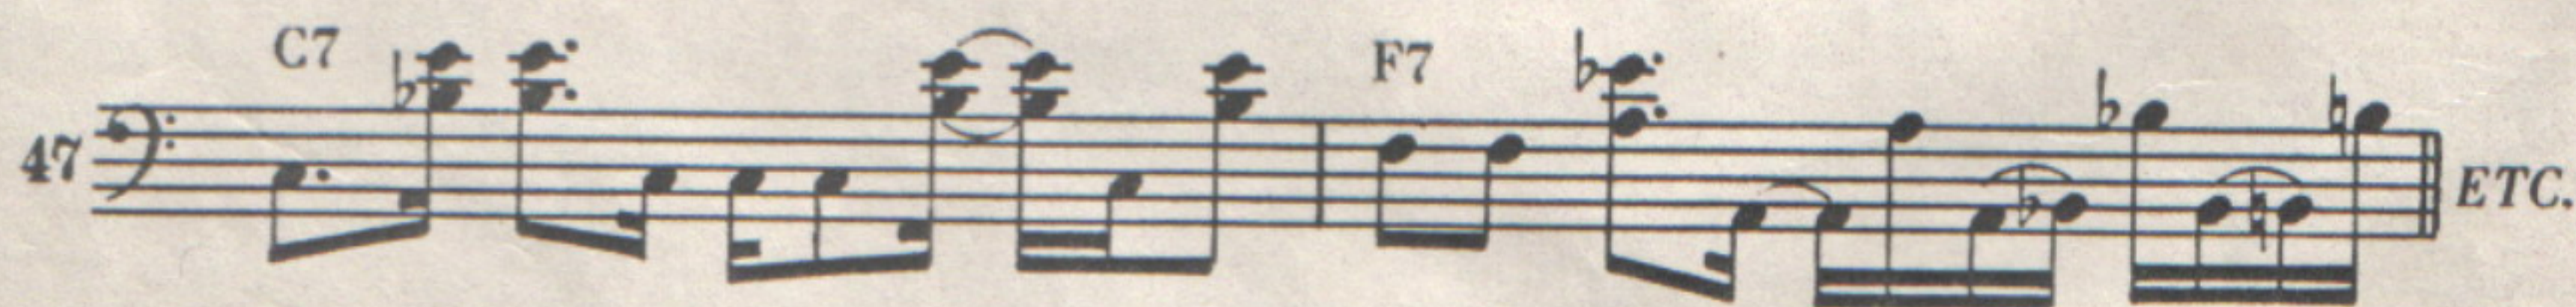

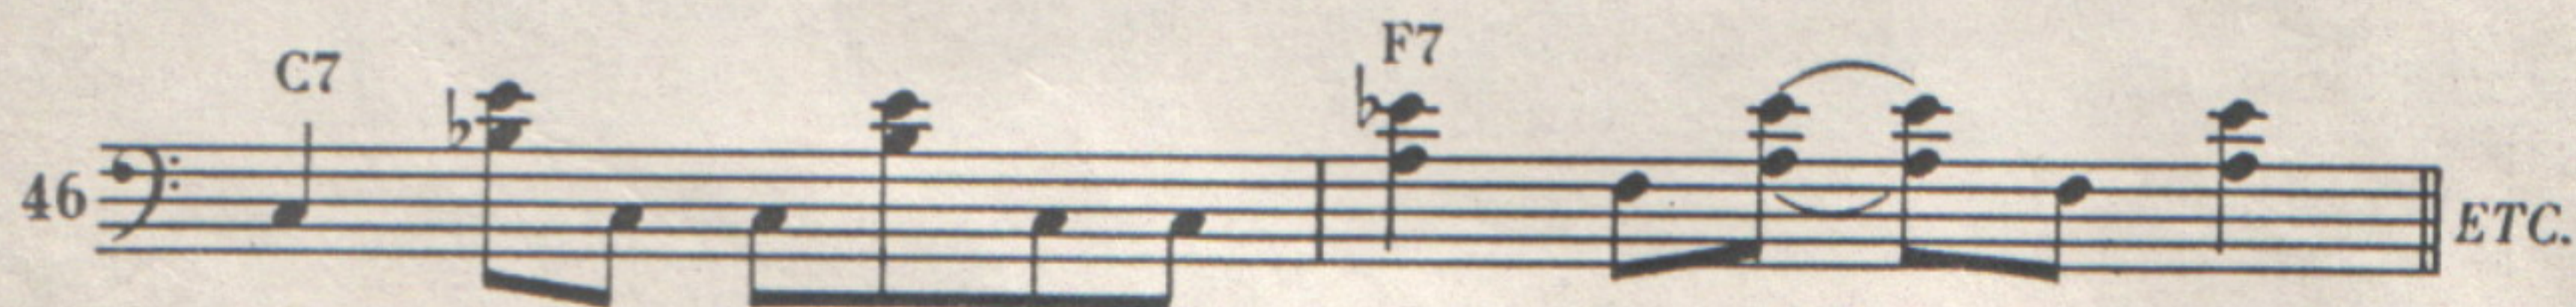

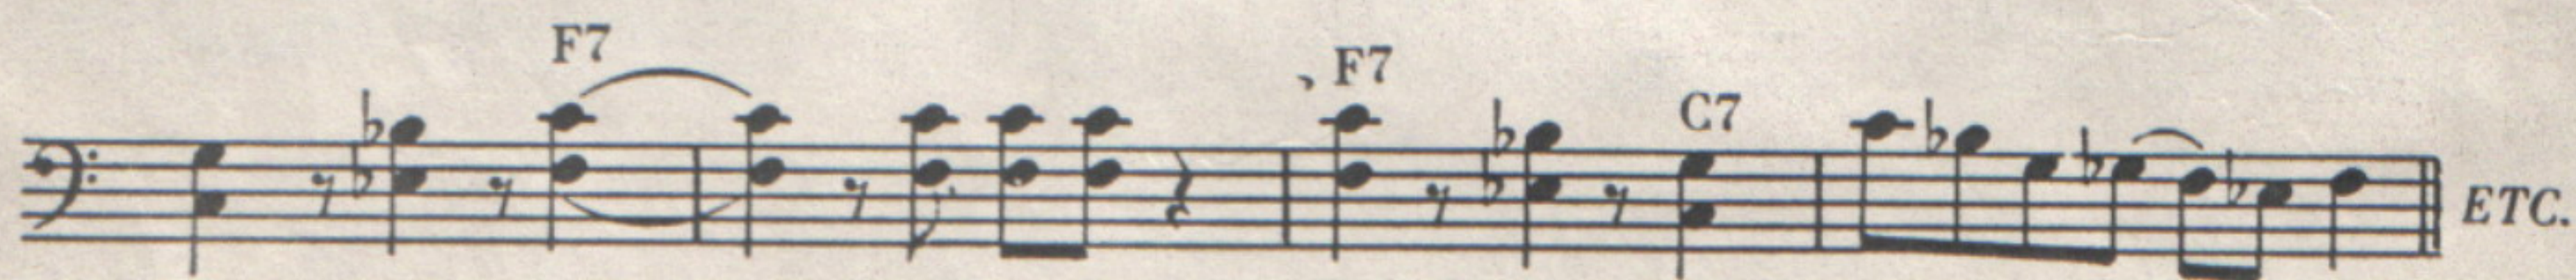

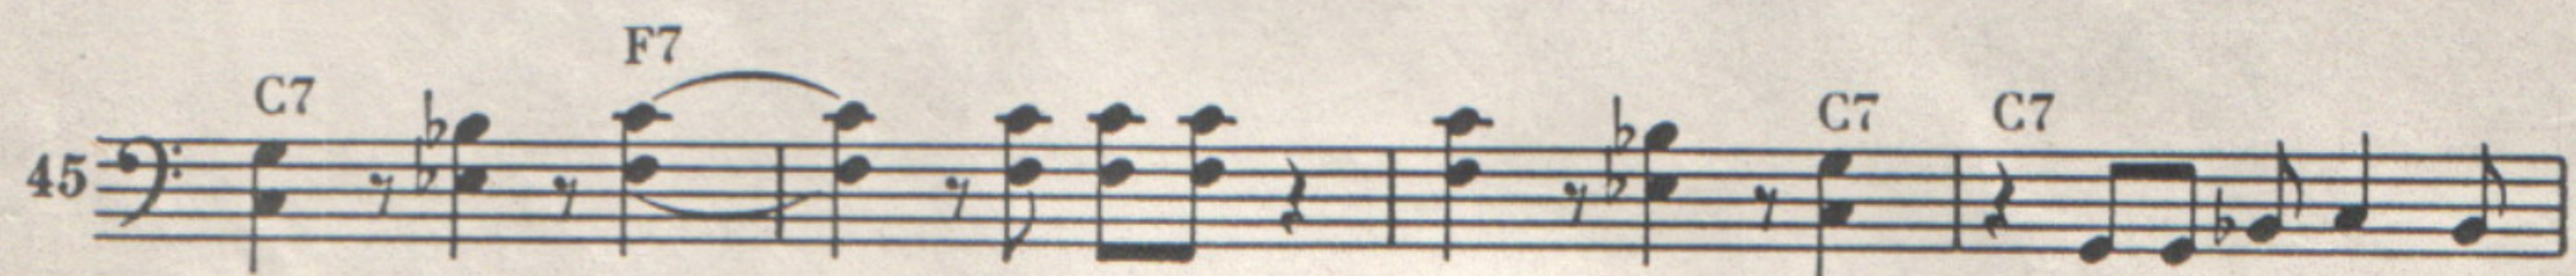

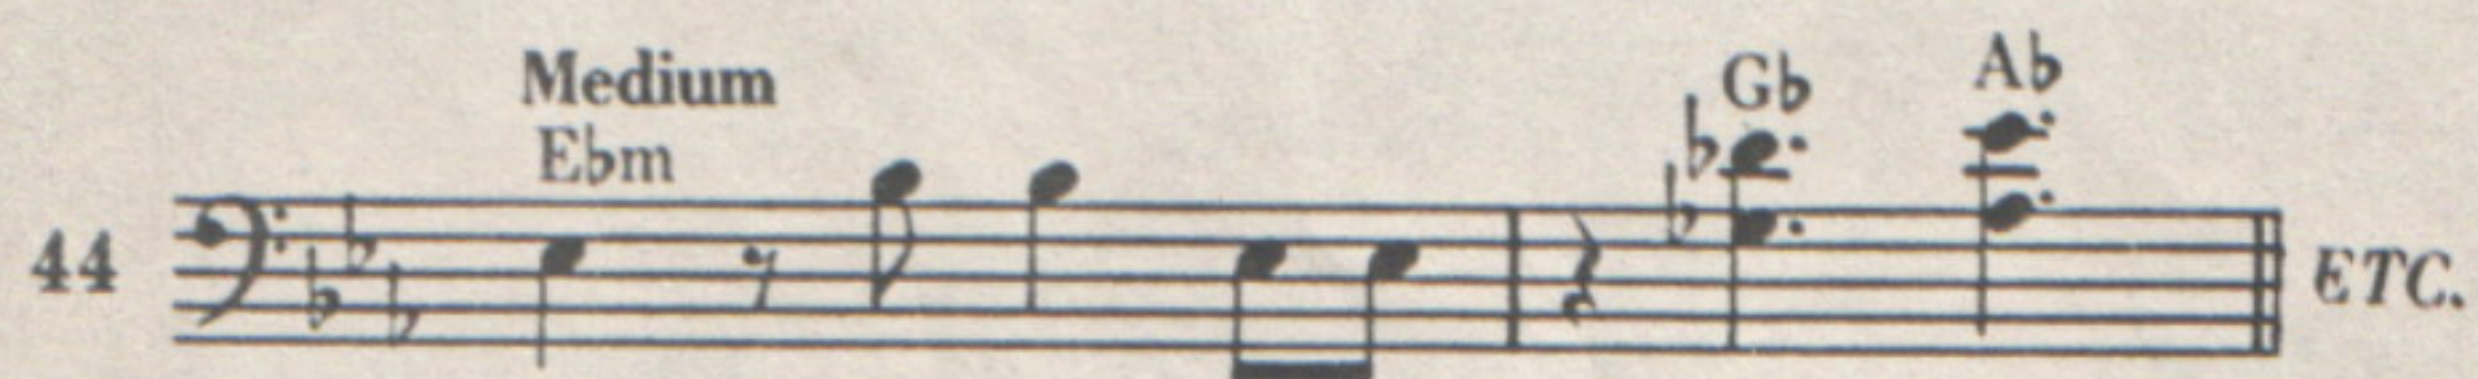

43 Slow Slide

The page contains 14 musical staves, each representing a different 'fill' pattern for electric bass. The staves are arranged in two columns of seven. The first staff on the left is labeled '43 Slow Slide'. The patterns include various rhythmic figures such as eighth notes, quarter notes, and sixteenth notes, often with slurs or accents. The notation is in bass clef with a key signature of one flat (B-flat).
